**JOINT ORDER DENYING MOTIONS  
TO LIFT STAY**

21 Plaintiff has filed "Motion(s) to Terminate Immoderate and Unlawful Stay" in fifteen  
22 related cases. For the reasons discussed below, the Motions are **DENIED**.  
23

24 **I. BACKGROUND**

25 Plaintiff has asserted patent infringement claims against each of the defendants in the  
26 fifteen above-captioned cases. These claims are all related to the same patent: U.S. Patent  
27 No. 4,935,184 ("184 Patent"). Plaintiff filed these suits at various times over the past several  
28 years, and because the Court has stayed each of these cases, virtually all of them are in the

1 early stages of litigation.

2 The Court has stayed each of these cases because the United States Patent and  
3 Trademark Office (“PTO”) is conducting a reexamination of the ‘184 Patent. If the PTO  
4 rejects the claims in the ‘184 Patent, all of these cases will be subject to dismissal. On the  
5 other hand, if the PTO accepts the claims in the ‘184 Patent, Plaintiff may proceed with its  
6 cases. Thus, the outcome of the reexamination will significantly affect these cases.

7 The PTO’s reexamination proceedings have continued for approximately two years.  
8 In its most recent communication, on August 29, 2009, the PTO issued a non-final office  
9 action rejecting all of the relevant claims in the ‘184 Patent.

10 Shortly after this office action, Plaintiff filed its “Motion(s) to Terminate Immoderate  
11 and Unlawful Stay.” This is Plaintiff’s second motion to lift the stay in seven months. Plaintiff  
12 filed its first motion in March 2009, and the Court issued an order denying it on July 10, 2009.  
13 In that order, the Court reasoned because the reexamination was still ongoing, all the factors  
14 supporting the initial issuance of the stay— namely that Plaintiff had not established undue  
15 prejudice, and the PTO’s reexamination would simplify the issues and save expense—were  
16 still present.

17 In its present motion to lift the stay, Plaintiff argues that the PTO has reversed course  
18 in its most recent office action rejecting the claims in the ‘184 Patent, and that the  
19 reexamination proceedings have no foreseeable conclusion. Therefore, Plaintiff contends,  
20 the stays are immoderate and unlawful in duration. Plaintiff further argues that the Court has  
21 unlawfully required it to submit to reexamination before proceeding with its cases.

22

## 23 II. DISCUSSION

24 The stays in these related cases are neither immoderate nor unlawful, and the Court  
25 has the authority to stay patent infringement suits pending the outcome of a reexamination  
26 proceeding related to the patent at issue.

27 “Courts have inherent power to stay an action pending the conclusion of PTO  
28 reexamination proceedings.” Ethicon, Inc. v. Quigg, 849 F.2d 1422, 1426–27 (Fed. Cir.

1 1988). There is a “liberal policy” in favor of granting motions to stay pending the outcome  
2 of PTO reexamination proceedings. ACII Corp. v. STD Entertainment USA, Inc., 844 F.  
3 Supp. 1378, 1381 (N.D. Cal. 1994). Indeed, federal district courts routinely stay patent  
4 infringement suits pending the outcome of reexamination proceedings. (See Central  
5 Purchasing LLC’s Opp., 9–10 (citing dozens of cases).)

6 In determining whether to stay litigation pending reexamination by the PTO, courts  
7 generally consider the following factors: (1) the stage of litigation; (2) whether a stay would  
8 cause undue prejudice or present a clear disadvantage to the non-moving party; and (3)  
9 whether a stay will simplify the issues in question and the trial of the case. See, e.g., Xerox  
10 Corp. v. 3Com Corp., 69 F. Supp. 2d 404, 406 (W.D.N.Y. 1999). The Court previously found  
11 that all factors support the issuance of a stay in these cases. Specifically, the court held that  
12 because these cases are in the early stages of litigation, Plaintiff has not established  
13 prejudice, and, for obvious reasons, the outcome of the reexamination proceeding will  
14 simplify the issues in this case. See Sorensen v. Black and Decker, 06cv1572, Docket No.  
15 243.

16 None of the facts supporting the initial issuance of the stay have changed materially.  
17 In fact, the only new development since the Court’s denial of the first motion to lift the stays  
18 is the PTO’s office action, which indicates that the PTO may soon reject all of the claims in  
19 the ‘184 Patent. This fact only supports the further continuance of the stays. And contrary  
20 to the Plaintiff’s claims, the stays are not indefinite; they will be terminated upon the  
21 conclusion of the reexamination—or sooner if the reexamination proceedings continue for  
22 an unreasonable length of time. But currently it appears that the PTO’s reexamination is  
23 continuing apace, and the Court is not persuaded that the reexamination proceedings will  
24 continue indefinitely.

25 Lastly, and contrary to Plaintiff’s assertion, the Court has not required Plaintiff to  
26 submit to reexamination proceedings before bringing suit. Instead, the Court has stayed  
27 litigation pending the outcome of reexamination proceedings, which is well within the Court’s  
28 authority. See, e.g., Ethicon, Inc. v. Quigg, 849 F.2d at 1426–27.

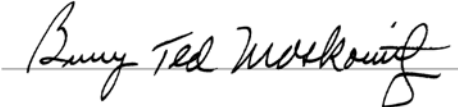

1 Notwithstanding the analysis set forth above, the Court does not believe the stay  
2 should be indefinite. On August 29, 2009, the PTO took preliminary action indicating  
3 possible invalidity of the claims. Plaintiff has responded to that action. It seems that the PTO  
4 can resolve these issues in the next several months. If the PTO can not, the light at the end  
5 of the tunnel may be so dim that the length of time required to traverse the distance becomes  
6 unreasonable. Therefore, assuming that Plaintiff does not seek any further delays in  
7 connection with the PTO's reconsideration, the stay will expire no later than **April 30, 2010**.  
8 The parties in all pending '184 Patent cases shall appear before the Court for a status  
9 conference on **May 5, 2010 at 4:00 p.m.**

### 10 11 **III. CONCLUSION**

12 For all of these reasons, the Court **DENIES** Plaintiff's "Motion(s) to Terminate  
13 Immoderate and Unlawful Stay" in the fifteen related cases. So long as Plaintiff takes no  
14 action to delay the reexamination proceedings, the stay shall expire on April 30, 2010. Any  
15 party may apply to the Court for an exception to the stay if it has specific, valid reasons to  
16 believe that it needs to obtain discovery in order to preserve evidence that will otherwise be  
17 unavailable after the stay.

18 **IT IS SO ORDERED.**

19 DATED: December 21, 2009

20   
21  
22 Honorable Barry Ted Moskowitz  
United States District Judge
